

Acceptable Use

Sierra Nevada Corp (SNC)/SpaceDev's Acceptable Use Policy

This Acceptable Use Policy (AUP) sets forth the principles that govern the use by customers of the Web-based products and services provided by SNC/SpaceDev. This AUP is designed to help protect our customers, and the Internet community from abusive or illegal activities.

General Violations

This AUP identifies the actions that SNC/SpaceDev considers to be Prohibited Actions (meaning those actions which create denial of access or impediment of service).

Prohibited Actions: General Terms and Conditions of Use

The Licensed Product can be, and are not limited to, SNC/SpaceDev services, products, trade marks, copyrights.

- Copying/duplicating the Licensed Product or creating subsets or derivative databases from the Database, except for personal use only.
- Assigning, selling or passing along the Licensed Product.
- Publishing or otherwise disseminating the Licensed Product or creating subsets or derivative sub-products for commercial use or sale.
- Providing services for a fee using the Licensed Product or any subsets or derivatives thereof.
- Unauthorized acquisition and distribution of passwords and/or access codes is strictly prohibited.

Prohibited Actions: Impersonation/Forgery

- Adding, removing, or modifying identifying network header information (aka "spoofing") in an effort to deceive or mislead.
- Attempting to impersonate any person by using forged headers or other identifying information.
- Prohibited Actions: Network unfriendly activity

Any activities which adversely affect the ability of other people or systems to use SpaceDev services or the Internet are prohibited. This includes "denial of service" attacks against the SpaceDev servers, network hosts or individual user.

Prohibited Actions: Commercial e-mail

Sending unsolicited commercial e-mail is prohibited. Using an SNC/SpaceDev

e-mail or Website address to distribute commercial e-mail is prohibited.
Sending large volumes of unsolicited e-mail (aka "mail bombing") is prohibited.

Prohibited Actions: Access control and Authentication

Attempting to circumvent user authentication or security of any host, network, or account (aka "cracking") is strictly prohibited. This includes, but is not limited to, accessing data not intended for the customer, logging into a server or account the customer is not expressly authorized to access, or probing the security of SNC/SpaceDev servers and networks.

Prohibited Actions: Proxy Hunters, Spiders, Robots

Using any program/script/command, or sending messages of any kind, designed to interfere with a User's session, by any means, locally or by the Internet.

Enforcement:

SNC/SpaceDev reserves the right to monitor Internet access to our services by authorized User(s) as part of the normal course of its business practice. Should SNC/SpaceDev discover User(s) engaged in Prohibited Actions as outlined above, which create denial of access or impediment of service, and which adversely affect SNC/SpaceDev's ability to provide services, SNC/SpaceDev reserves the right to temporarily suspend User access to the SpaceDev Host Server and/or Database. SNC/SpaceDev shall make written/electronic notification to User point of contact (ISP) of any temporary suspension, and the cause thereof, as soon as reasonably possible. This temporary suspension will remain in effect until the Prohibited activity ceases.
